Health has never been a standalone concept. Humans, animals, and the environment are interconnected, each influencing the well-being of the others. Maintaining this balance is essential for sustainable practices and long-term progress.

Dedeks focuses on animal health, developing solutions grounded in scientific principles, technical expertise, and consistent quality standards. Our product portfolio provides veterinarians and animal health professionals with practical, reliable, and accessible tools for everyday use. Through continuous development, we strive to meet the evolving needs of veterinary practice and the livestock industry.

Since 2022, Dedeks has focused on more than supplying products, placing availability, consistency, and trust at the heart of its operations. Founded in Türkiye, the company has steadily expanded its international presence across Europe, the Middle East, and Asia.

Through long-term partnerships and reliable distribution networks, Dedeks aims to create lasting value for animal health professionals. We believe that supporting animal health means not only meeting today's needs but also contributing to a more responsible and sustainable future.

Dedeks®

Expanding to more countries every day.

Celebrating Our 4th Year, A Story Extending Borders

We make our animal health solutions accessible across a broader geography each day. Through our products and strengthening distribution structure, we connect with veterinarians and breeders in different regions of the world.

DEDEKS®

Health products for our best friends.

Dedeks®

Healthlife

Medical consumables, diagnostic equipment and clinical products.

Stethoscopes

DEDEKS® stethoscopes are clinical diagnostic instruments designed for the assessment of cardiac, pulmonary, and abdominal sounds. With models suitable for different areas of use, they support the diagnostic and examination processes of veterinarians and healthcare professionals.

DEDEKS®

Dual-Frequency Stethoscope

Cat. No.	MOQ	Barcode
HL010101	25 pcs	8683735910206

This dual-head stethoscope is suitable for human and veterinary examinations, supporting the assessment of heart, lung and abdominal sounds. Its clear acoustic transmission assists diagnostic examinations.

DEDEKS®

Classic DualScope II

Cat. No.	MOQ	Barcode
HL010201	25 pcs	8683735914013

Provides clear, consistent sound transmission when assessing cardiac, respiratory and abdominal sounds. The ergonomic design offers comfort during extended use and suits everyday veterinary clinical practice.

DEDEKS®

SONODEKS™

Cat. No.	MOQ	Barcode
HL010301	25 pcs	8683735914631

Designed for clinical examinations of cattle, SONODEKS™ features a 68 mm chestpiece for assessing cardiac, respiratory and abdominal sounds. Its sensitivity to deeper, low-frequency sounds supports detailed auscultation.

DEDEKS®

Self-Adherent Cohesive Bandage

These 450 cm self-adherent cohesive bandages are made of breathable, elastic nonwoven polyester fabric. They adhere to themselves without sticking to human or animal skin.

Digital Thermometers

DEDEKS® digital thermometers are designed for clinical temperature measurements in both human and animal healthcare. With fast and accurate measurement capabilities, they deliver reliable results in everyday medical and veterinary applications. Their easy-to-read digital displays and ergonomic design ensure practical and comfortable use.

DEDEKS®

Digital Thermometer I

Cat. No.	Model	MOQ	Barcode
HL0401	DT113	25 pcs	8683735914310

Designed for clinical and daily measurements related to animal and human health. Enables fast and reliable measurement of body temperature. With its clear digital display, measurement results are easy to read and store. A reliable choice for routine clinical practice.

DEDEKS®

Digital Thermometer II

Cat. No.	Model	MOQ	Barcode
HL0402	DT116	25 pcs	8683735914327

Its advanced ergonomic design provides a controlled and stable grip during measurement. The audible alert system notifies the user when the measurement is complete, ensuring practical use. The automatic shut-off feature supports energy efficiency. Developed for professional clinical use.

DEDEKS®

Digital Thermometer III

Cat. No.	Model	MOQ	Barcode
HL0403	DT119	25 pcs	8683735914334

With its compact and simple design, it is suitable for routine clinical and daily measurements. Supports different applications thanks to its compatibility with oral, axillary, and rectal measurements. Provides practical and reliable performance with a clear LCD display and fast measurement time.

DEDEKS®

Protecting the family is our instinct.

We act with an awareness of the responsibility carried by a global brand, shaped by a mother’s sensitivity and a veterinarian’s precision. We view health not merely as an outcome, but as a value that must be carefully protected at every stage.

By placing science, continuity, and trust at the center of solutions that touch both human and animal life, we work toward a single purpose. From products that perform quietly and reliably in daily use to solutions that play a critical role in professional practice, our aim remains the same: to protect life.

For us, health is not only about today. It is a responsibility we take on for tomorrow as well.

Vetlife

Clinical use, injections, emergency care and field application products.

Injectors

Veterinary injection equipment plays a critical role in the controlled administration of medicines and vaccines at the intended dose. Designed for field and clinical use, DEDEKS® injectors combine ergonomic handling with durable construction.

DEDEKS®

Automatic Injector

Cat. No.	Model	MOQ	Barcode
VL010101	1 ml	40 pcs	8683735910671
VL010102	2 ml	40 pcs	8683735910336
VL010105	5 ml	40 pcs	8683735910343

Its compact design supports efficient repeated injections in cattle, sheep, pigs, poultry and aquaculture operations. The ergonomic, non-slip handle provides controlled use, with dosing capacities up to 5 ml depending on the model.

DEDEKS®

Multi-Matic Injector

Cat. No.	Model	MOQ	Barcode
VL0102025	25 ml	20 pcs	8683735910596
VL0102050	50 ml	20 pcs	8683735910602

Designed for efficient mass vaccination and medication programmes. Depending on the model, the adjustable dosing dial enables controlled injections in the 0.5–25 ml or 1–50 ml range. After filling the reservoir, the user selects the required dose for each application.

DEDEKS®

Metal Automatic Injector

Cat. No.	Model	MOQ	Barcode
VL010301	1 ml	20 pcs	8683735911029
VL010302	2 ml	20 pcs	8683735911036
VL010315	5 ml	20 pcs	8683735911043

Designed for controlled repetitive injection of aqueous, oil-based and high-viscosity medicines and vaccine suspensions. Its metal housing and piston mechanism provide durability for intensive use, while the glass barrel accommodates different formulations. Adjustable dose ranges are 0.1–1 ml, 0.2–2 ml or 0.5–5 ml, depending on the model.

DEDEKS®

Auto-Deks™

DEDEKS® Auto-Deks™ automatic veterinary syringes are designed for controlled, repeated injections. The adjustable dosing mechanism enables consistent, precise dosing, while the ergonomic handle provides ease of use across veterinary applications.

Cat. No.	Model	Barcode
VL010501	Auto-Deks TB 2 Automatic Veterinary Syringe 2 cc	8683735914488
VL010502	Auto-Deks TB 6 Automatic Veterinary Syringe 6 cc	8683735914495
VL010503	Auto-Deks TB 10 Automatic Veterinary Syringe 10 cc	8683735914501

Auto-Deks™ is available in three models: TB 2, TB 6 and TB 10. It can be operated using a 100 ml bottle reservoir or a hose connected to an external fluid source. The Luer-Lock needle connection, adjustable dose mechanism and detachable components accommodate different injection requirements and simplify cleaning and maintenance.

Metal Hypodermic Needle

Due to differences in physiological structure and body weight among animal species, the size and characteristics of needles used in veterinary injections vary significantly. From fish weighing only a few hundred grams to large livestock reaching several tons, a single needle type cannot meet all requirements.

DEDEKS® metal hypodermic needles are manufactured from stainless steel using precision cutting technology to address these diverse needs.

They provide reliable use in subcutaneous, intradermal, and intramuscular injections across a wide range of species including cattle, sheep, pigs, poultry, fish, and camels. Produced in various size options, the needles are suitable for single use and compatible with automatic injectors. When reprocessing is permitted under appropriate conditions, their structure supports long-term and economical use.

Each needle size is color-coded, clearly marked by diameter, and labeled with barcode information in compliance with ISO standards.

Disposable Hypodermic Needle

Injection of vaccines, medications, and vitamins into the living body requires sterile conditions in both human and animal healthcare. Selecting the correct needle according to the application method and the formulation of the medication is essential. DEDEKS® single-use hypodermic needles are manufactured from stainless steel and supplied individually in sterile packaging. Available in various sizes for subcutaneous, intradermal, and intramuscular injections, they are compatible with disposable syringes and multi-dose automatic injectors. Designed for precise and reliable administration, the needles feature sharp tips and are intended for single use. They are described as non-pyrogenic and non-toxic.

DEDEKS®

Veterinary Examination Table

Veterinary examination tables with smooth, easy-to-clean stainless-steel surfaces for animal examinations and clinical procedures. Available with hydraulic or electric height adjustment depending on the model, they support ergonomic working conditions and patient comfort.

Cat. No.	Model	MOQ	Barcode

DEDEKS®

BOVI-DEKS™ Hoof Block Adhesive

BOVI-DEKS™ is a fast-setting, two-component polyurethane adhesive designed to secure wooden or urethane hoof blocks to cattle claws. At 20°C, the stated initial setting time is approximately 20–30 seconds. Applying a block to a healthy claw can help reduce pressure on the affected claw.

Apply to a clean, dry hoof using the compatible mixing tip and dispensing gun. Position the block with light pressure; the stated full cure time is approximately 2–3 minutes. Correct application helps achieve a secure bond.

Petlife

Veterinary clinic and companion animal care products.

Veterinary Clinic Equipment

This product group is designed for daily clinical use in veterinary practices, covering examination, care, and protective applications. Developed to support routine clinical workflows, the range offers practical, reliable equipment with durable construction and functional design, suitable for professional use.

CUTE-CAT™
Cat Handling Gloves

Cat. No.	Model	MOQ	Barcode
PL0101	CUTE-CAT™ Veterinary Cat Handling Gloves	12 pcs	8683735910619
PL0102	CUTE-DOG™ Veterinary Dog Handling Gloves	12 pcs	8683735913870

Designed to protect veterinarians during examination and handling, the CUTE-CAT™ cat handling gloves help reduce the risk of scratches and bites. They allow controlled handling while supporting safe and efficient routine clinical procedures.

DEDEKS®
Post-Operative Recovery Cone

Cat. No.	Model	MOQ	Barcode
PL0201	Stitched Elizabethan Collars	10 pcs	See page 38
PL0202	Seamless Elizabethan Collars	10 pcs	See page 38

Designed to help prevent animals from licking or interfering with surgical sites and wounds during the post-operative period. Suitable for cats and dogs, the collar supports safe recovery. Selection should be based on the animal's temperament, procedure type, and body size.

DEDEKS®

Cat Catheter

Designed for urinary drainage and fluid applications in feline patients. Flexible construction and appropriate sizing support controlled use and animal comfort in routine clinical procedures.

DEDEKS®

Pill Popper

Designed for safe and accurate oral medication in small animals. The soft, flexible structure allows easy placement and supports stress-reduced administration for both clinical and home use.

Neck Strap

The neck strap is used to securely attach and carry neck identification numbers on the animal's neck. Identification numbers play an important role in herd management, and the strap ensures stable positioning and easy visibility during daily operations. Designed for reliable use in both large and small ruminants.

DEDEKS®

Mane Curry Comb

Designed to remove loose hair, dirt and dead skin during cattle and small-ruminant grooming. The durable comb supports effective brushing and a gentle massaging action.

DEDEKS®

Cattle Lifter 1,500 kg

The 1,500 kg cattle hip lifter assists with lifting recumbent cattle when used with suitable lifting equipment.

DEDEKS®

Rumen Magnet

The rumen magnet attracts ferrous foreign objects ingested by ruminants, helping reduce the risk of injury from metallic objects.

DEDEKS®

Ear Notching Pliers

Made of stainless steel, these practical ear-notching pliers help provide permanent identification for sheep and simplify flock management.

DEDEKS®

Anti-Kick Bar

A cattle kick stop used to restrict kicking during milking, examinations and routine care.
